Unique Value Proposition

PROVEN BUSINESS RESULTS REAL COMMUNITY DIVIDENDS !

Achievements

Wallara is a leading innovator in the disability sector that provides employment opportunities for people with disabilities.

Our clients value Wallara for the level of service and commercially viable outcomes.

The decision in 2009 to purpose design a 3PL and production/packaging facility is a success for our clients and hence Wallara Industries and Wallara Logistics. We now deliver warehousing, pick pack and distribution services for a number of iconic national brands.

The success of the 3PL channel, Wallara Logistics, has led to the further expansion to the 3600m² 3PL only warehouse in 2012. Continued growth in the business will require further planned expansion during 2015/2016.

The fact that Wallara has over 100 employees with a disability is not the determining factor – it is that Wallara provides a high quality customer orientated service that is competitive with commercial rivals.

Wallara Clients & Services

Wallara provides kitting, packing and associated assembly services to a number of major Australian and International brands based on the proven ability to perform high quality, high volume service delivery month in and month out. Further details can be provided upon request.

Wallara's B2B and ecommerce logistics services have grown considerably since 2009 to the extent that over 18 different customers are currently serviced from the 3PL facility.

Wallara's client base is strong and growing. Most existing customers have been with Wallara for more than one contractual period, usually 2 years, with rollover provisions commonly actioned by either party well before contractual requirements.

Wallara's customers are willing to share their perceptions of the Wallara experience and we would be delighted to provide potential clients with a list of business referrals as required. View two of our testimonials via the links below:
